Subject: a few suggestions for today's assumption briefing
Attachments: Meeting Agenda-OW biweekly on FL assumption_11.17.2020 - tpm.docx

Jeaneanne – I'm attaching suggested markups to your notes for this afternoon's briefing, including some new information I learned today. Here are the highlights.

- The FWS has signed the "big fish – little fish" MOU, and it will be included as an attachment to their BiOp. (I learned this from a short conversation today with Rob Tawes).
- Now that the BiOp is signed, neither Alexis nor Steve N were concerned about any need to delay posting it. She suggested just giving an update to leadership instead of having her or Steve raise any issues.
- The Corps HQ will send EPA a letter indicating that they have no comments. (Kathy Hurlid learned this today from her HQ contact.)
- During the discussion about the draft PA, I suggest you also seek clarity on whether we can share as draft with the consulting parties, preferably prior to our meeting with them during the week of Nov 30.
